

14TH EUROPEAN CONGRESS
ON MENOPAUSE AND ANDROPAUSE
3 – 5 MAY 2023 | FLORENCE

Sharing Expertise for Changing Times

EMAS 2023 is being planned as a face to face Congress

We encourage you to join us at the EMAS Congress, which we all look forward to as a Renaissance of our ability to meet and enjoy and share science together. EMAS is the key international society promoting health in women and men at midlife and beyond in the era of e-medicine. At EMAS 2023, you will have the opportunity to connect with leading experts, many of whom are clinicians, clinical investigators in trials, key opinion leaders, educators and leading laboratory scientists from around the world.

Florence is an open-air museum, able to offer a different and fascinating show in every season. The historic center, which is very close to the congress venues, is a stage, surrounded by the Renaissance architecture of noble palaces, squares and churches.
